

REVISION OF THE ECOSY STATUTES AT THE 11TH ECOSY CONGRESS

During ECOSY's 10th mandate, several points at which the version of the ECOSY Statutes that is currently in force is either internally contradictory or contradicts with established practice or common sense have been identified, such as the number of votes accorded to the Bureau member representing observer and candidate member organisations.

The ECOSY Bureau mandates the ECOSY Presidium and Control Commission to review the Statutes and propose changes to eliminate these contradictions to the 11th ECOSY Congress.
