Resolution on Equal Rights for LGBTQIA* Individuals

We, Young European Socialists, are committed to fight homophobia, biphobia and transphobia as well as other form of discrimination. Same-sex marriages and same-sex partnerships must have the same legal status as marriages and partnerships between women and men, including equal social security benefits for same-sex couples. This includes equal rights for one spouse in case of illness, disability and death of one of the couple. This includes also the same rights in case of parenthood.

Young European Socialists call upon all European social democratic parties, politicians and lawmakers to adopt equal marriage legislation and grant same-sex couples the right to adopt children. In the referendum in February 2015, Slovak people showed their unwillingness to restrict the rights of LGBTQIA* individuals. With regard to the outcome of this referendum, Young European Socialists call upon Slovakian social democratic politicians and mainly their lawmakers to adopt equal marriage legislation and grant same-sex couples the right to adopt children.
